## Hitachi Capital Canada Introduces Equity + open line

Recognized specialist in the construction and transportation sectors, Hitachi Capital Canada is gathering all experience and expertise to offer this product that will support Canadian entrepreneurs. We understand your reality and your needs.

This unique product uses the real value of your assets, allowing you to obtain maximum liquidity.

## Equity + open line

The authorized amount is based on your equipment and accounts receivable and fluctuates monthly according to them.

- Borrowing power typically higher than on your traditional operating line of credit.
- Access to withdraw or pay down anytime dependent on your cash flow.
- Competitive interest rate.

## The benefits

- Access to more liquidity by maximizing the equity available on your assets.
- Facilitates the management of your liquidity depending on the seasonality of your operations, unforeseen opportunities or sudden obligations.
- Ability to respond quickly to a business opportunity requiring funds.
- Availability of additional funds payable only on a pay-per-use basis.

Access additional funds when you really need them.
